All exhibitors are required to contract an **All Risk insurance** for all goods and equipment displayed on their booth.

Exhibitor badges have full access to the scientific programme.

### Exclusion of Liability

1.) The organizer (DGMS and 3<sup>rd</sup> Party) assumes no responsibility for damages of any kind, in particular, damages on and at the exhibition stand (equipment of the stand, exhibits, property of persons employed on the stand) and damages sustained by third parties due to the stand, unless such damage is proved to have been caused intentionally or through gross negligence by the organizer or his servants.

2.) Any liability on the part of the organizer for consequential damages is excluded.

3.) The exhibitor is obligated to take out sufficient insurance cover in respect of his liability risk.

4.) The exhibitor is liable for all personal injuries and damages to property arising from the erection or demonstration of the instruments exhibited.

5.) If the event is canceled by the organizer - for whatever reason - already paid stand fees will be refunded in full. Any further claims of the organizer are excluded.

### General terms and conditions

1.) The exhibitor is asked to adhere to the fire protection and other safety and existing legal requirements according to the VStättVO regulations. As well as the recommendations of the VDE - Association of the Electrical Engineering Electronics Information Technology e.V. as organized by the organizer. At the request of the fire brigade or the venue, the exhibitor has to order a fire safety guard. The exhibitor bears the associated costs.

2.) Certain decorations, furnishings, and ornaments etc. must be at least flame-retardant (classification B1 according to DIN 4102). Loose-hanging ornaments/decorations are not permitted.

3) The exhibitor must ensure that the maximum permissible load values for the electricity current are not exceeded. Extension cables must be provided by the exhibitor. The equipment used must be in accordance with the accident prevention regulations "Electrical systems and operating equipment" (GUV-V A3) and be in perfect safety-technical condition. In the case of power supply, care must be taken to ensure that no cables are routed across traffic routes and exit/escape routes.
